**MEMORANDUM FOR COMMANDERS, DEFENSE CONTRACT MANAGEMENT
DISTRICTS**

**SUBJECT: DCMC Memorandum No. 96-34 , Termination Automated Management System
(TAMS), Version 3.2 (INFORMATION)**

This is an INFORMATION Memorandum. It expires on July 12, 1997 unless sooner superseded or rescinded. Target Audience: Termination Settlement Personnel.

During this interim period of TAMS 3.2 testing, we continue to experience many problems affecting the usefulness of the application, as well as the overall integrity of the database. Due to the nature of these problems, corrective action will take longer than originally anticipated.

Until we have a complete re-baseline of the program, all terminations personnel should stop input of data into TAMS 3.2 and resume using TAMS 2.7. The Payment, Closeout and Property Team will help to identify those termination dockets which require re-input of data into TAMS 2.7. This effort should begin immediately and be completed within 45 days. Since the semiannual Contract Termination Status Reports required by DFARS 249.105-1 for the period ending September 30, 1996 will soon be due, it is very important that each termination settlement office take the necessary steps to ensure the TAMS 2.7 database accurately reflects termination status.

We appreciate your continued support during this period and look forward to deploying a system which meets the requirements of the TAMS users. Questions on this memorandum may be referred to Marie Garney, Payment, Closeout and Property Team at DSN 427-3447 or (703) 767-3447, Internet address: marie_garney@hq.dla.mil.
